Mr Wilson, I know you are very busy and if I need to address this with another person in the EPA I would appreciate it if you could please give me a contact. We just retested the indoor air of our home attached are the results. We are being relocated back to the mainland due to the medical issues our family is suffering, since the medical community here has not been able to find a cause and we have been exposed to these gases for the last 5 years of living here. SOMEONE need to help the residents of Hickam communities....there are other homes that have tested positive ours is the only one that has had multiple tests showing the fluctuations. These readings are higher then our original readings for Heptachlor and it is not even the hottest part of the year here yet. If there is someone else I should be contacting for this...please tell me. Thank you

According to the State of Hawaii only heptachlor was used to treat some homes. See the last paragraph of the file below under Heptachlor.

<http://eha-web.doh.hawaii.gov/eha-cma/Downloads/HEER/termicidefactsheetfinalsept2011.pdf>

Please see attached results.

Note: Detected large unknow peaks with retention times below that of heptachlor for both samples.

Best,

Dr. Cassidy

Subject: Pesticide Environmental Action Levels (EALs)

Date: Mon, 9 Feb 2015 19:25:18 +0000

Good Morning

**Personal Matters / Ex. 6**

Your question or inquiry to the “EPA Information Contact Form” regarding health-based action levels for several pesticide compounds has been referred to my office. I just attempted to phone you directly via the contact information provided (Phone number: **Personal Matters / Ex. 6**)

Please feel free to contact me directly via the contact information provided below. I would be happy to speak with you about various environmental screening action levels & their derivation. For your convenience, U.S. EPA’s health-based Regional Screening Levels (RSLs) can be found at:

[http://www.epa.gov/reg3hwmd/risk/human/rb-concentration table/Generic Tables/docs/master sl table run JAN2015.pdf](http://www.epa.gov/reg3hwmd/risk/human/rb-concentration%20table/Generic%20Tables/docs/master%20sl%20table%20run%20JAN2015.pdf)

Best Regards...

..patrick wilson
